

STORM SERIES
www.excel-marine.com

STORM CAT™

The new Storm Cat is wide, deep, tough and fast. The spacious 102” beam and deep 28” sides allows you to fish bigger and rougher waters and provides a wide and stable fishing platform. Thick .150 aluminum takes a pounding from waves and heavy barge traffic.

The Excelleration™ Pad Hull runs smooth and extremely fast and will be the leader on the Catfishing tournament scene. A full-height and sealed walk-through windshield protects from the elements. A 63 gallon fuel tank provides miles and miles of range.

Contact your local dealer for pricing.
