SUPERIOR DESIGN

The Bay Pro Elite pad hull gets on step quickly, rides smoothly, is amazingly fast and turns on a dime.

The new wide body front deck has a trolling motor mount, dry storage box, and motor/nav/trim control switches. The over-sized front deck has plenty of room to work your favorite fishing hole from any angle on the boat.

Pair with Suzuki DF200ATLW for optimal power.

Choose single color for interior & exterior, or choose separate colors for int/ext combination.

(M) Indicates Metallic

Metallic clear coat may be applied to all colors with the exception of camo.
