- > Console Storage Shelf with Room for 2 Batteries
- > Newly Designed Aluminum Console with 6 Rod Holders

Introducing the Command 183

Innovative and ultra functional console with high windshield for maximum protection. Folds quickly and easily when not in use. An Excelleration™ Pad Hull virtually eliminates hydrodynamic drag for increased speed and handling. A tough .160 gauge hull is standard. Sleek lines provide maximum interior space and design strength. A large casting deck provides plenty of elbow room for fighting trophy fish. Lockable rod boxes keep gear safely stowed. Other features include flip-up jump seats, livewell, integrated trolling motor bracket and 45 degree angle transom splash-well.
