- > Starboard & Portside Gunwale Storage Trays

## The most versatile boat in the Excel fleet.

Shallow water or deep, fishing or hunting, outboard, mud motor, or jet -- 1864 Switchblade does it all. The wide 84" beam provides outstanding stability, room for hunting gear, and elbow space for fishing partners. Rated for a 75HP; you'll also get there fast. An innovative tiller console with grab bar and switch panel protects the driver from the elements, harsh winds, and provides ample storage.
