STALKER

CC & SC

FOR EVERY ADVENTURE

The Stalker is geared and ready for all-season fishing and hunting. The Viper hull handles choppy waters of the gulf coast and large reservoirs yet can access shallow coves after crappie or your favorite duck marsh.

» 825lbs/860lbs/1350lbs/1400

STALKER

CC & SC

One boat the does it all.

STALKER RIDES HIGH AND DRY

The Stalker with reverse chine hull, commonly used on high-end bass boats gets on step quickly, rides smoothly and turns like a train on its tracks.

SPACE FOR YOU AND YOUR GEAR

Large front and rear casting decks provide ample elbow room and comfort on all-day excursions as well as piles of hunting gear. Options such as a low front deck, floor gate drain, seat box livewell, leaning post backrest with rod holders, and interior LED lighting allow you to customize the Stalker to your dreams.
