ONE BOAT, ENDLESS SPECIES: WHERE VERSATILITY & PERFORMANCE MEET

The legendary performance and meticulous construction of the Bay Pro; now in a side console. This new multi-species boat has all the right features and options for any fishing outing. Standard .160-gauge aluminum construction makes it the toughest multi-species boat on the water.

EXCELERATION PAD HULL™

SMOOTH RIDE | HIGH SPEEDS

The Bolt is built on the same EXCELERATION PAD™ hull used by the legendary Bay Pro. With .160 ga aluminum this boat will take you into the big waters or skinny with speed and confidence.

BUILT FOR MAXIMUM FISHABILITY

The Bolt bridges the gap between a bass slayer and a panfish paradise. It's got the casting deck and aerated livewell of a bass boat, and ample space for maneuvering and dropping multiple lines, ideal for crappie and bluegill.
