

WHAT THE HULL

Excel has engineered some of the toughest, best performing aluminum hulls on the market. which one is right for you?

Triple Taper Chine™

25"

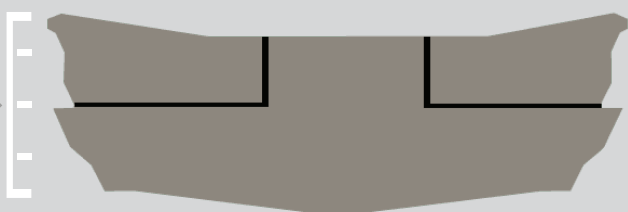

SWF4 | Pro Hull | Switchblade | Eclipse

0°
Deadrise

- Superior performance for Shallow Water motors
- The slick bottom glides over skinny water with ease
- Unparalleled turning capabilities

Viper Hull™

24"

F4 Viper | Stalker | Cat Pro |

6°
Deadrise

- Traps water under the boat, increasing lift and providing better load capacity.
- Increase performance from outboard motors.
- Turns flat and holds tight with every turn

River Warrior Hull™

26"

River Warrior Tiller | Side Console

6°
Deadrise

- Prioritizes exceptional maneuverability
- Incorporates reverse chines and strategically placed strakes
- Gives precise handling and rapid response

Exceleration™ Pad Hull

25"

Bay Pro Elite | Command 183 | Bolt

14°
Deadrise

- Engineered to provide the highest degree of performance
- Water breaks cleanly away from the running pad and virtually eliminates hydrodynamic drag
- Increased performance, speed and handling

Deep V Hull

35"

Stormcat | Buoy 10

18°
Deadrise

- Remarkable balance between strength and speed
- Facilitates effortless wave penetration
- Stable platform for extended deepwater fishing expeditions
